

## High Tech Imaging at Lakeview Clinic

Your Lakeview Clinic provider has ordered an MRI or CT for you / your family member. While Lakeview Clinic does provide MRI and CT imaging services at our Waconia facility, Federal Regulations require we notify you that our providers own our scanner and, if you choose, you can be scanned elsewhere. Below are options for local CT / MRI facilities. Please note, it is your responsibility to ensure the facility is contracted with your individual health plan. If your Lakeview physician participates in your health plan, any MRI or CT performed at Lakeview Clinic will be an in-network benefit.

| Location                   | Address                       | City          | Phone        |
