

Minnesota Primary Care Price Transparency

Minnesota law requires primary care clinics to post the following information annually on the top 25 most frequently billed current procedural terminology (CPT) codes, including the provider's ten most commonly billed evaluation and management codes and the ten most frequently billed CPT codes for preventive services priced over \$25, including the top 10 Evaluation and Management and Preventive Medicine services.

The pricing information listed below does not reflect the amount(s) each clinic patient will pay for the services listed.

Your actual fee may be higher or lower depending on many factors, including, but not limited to, your provider's treatment plan, actual services rendered, complications, and the details of your insurance coverage, if any.

CPT	Description	Clinic Charge	Medicare Reimbursement	Medicaid Reimbursement	Average Commercial Insurance Payment
80048	Basic Metabolic Panel	\$30.00	\$8.46	\$8.46	\$9.41
