

Lakeview Clinic is a physician-owned clinic with four locations in the suburban and rural communities of the Twin Cities southwest metro area. Our clinics have been providing high-quality, patient focused care for over 65 years.

We are proud to offer compassionate care for all stages of life and are equipped with a high complexity lab and comprehensive radiology services including MRI, CT, DEXA, X-ray, and 3D mammograms. We share privileges with Ridgeview Medical Center which has a cardiac catheterization lab, NICU and specialty support.

Our Communities

Lakeview Clinic's providers and staff love serving the vibrant communities of Chaska, Norwood Young America, Waconia and Watertown MN. Our communities are a wonderful mix of rural charm and suburban convenience. Nature lovers and outdoor enthusiasts make the most of the many parks, lakes and trails. Numerous vineyards and breweries are additional highlights of our service area complemented by unique dining and entertainment options. A rich culture of entrepreneurship is also evident in Lakeview's service area which is well suited to these thriving communities.

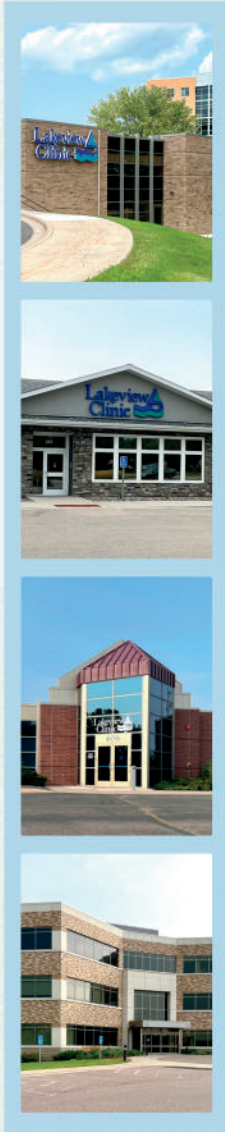

Our Providers

We take pride in providing community-based, comprehensive healthcare for all stages of life at Lakeview Clinic. Our providers have the benefit of working in a collaborative environment with family medicine physicians, internists, pediatricians, ob/gyns, general surgeons, optometrists and a podiatrist.

Testimonial

"I was originally introduced to Lakeview Clinic through RPAP, a 9-month longitudinal medical school clerkship in my 3rd year of medical school. I quickly saw how having a multi-specialty physician-run group was different than most traditional models, as business decisions are made by providers with patient care at the forefront. I appreciate my colleagues who are so willing to teach without judgement and lend a hand if needed. Additionally, I have found Lakeview to be accommodating and expedient in facilitating provider's special interests, for example, mine in ultrasound guided musculoskeletal injections. Lastly, I enjoy the work life balance provided by 4-day weeks and infrequent call. At the end of the day, I feel supported as a provider and a person and love that my Lakeview coworkers feel like family!"
